01 // EDUCATION

Technical University of Darmstadt (TU Darmstadt) — Darmstadt, Germany

Bachelor of Science (B.Sc.) in Computer Science | Oct 2026 – Present

- Core Focus: Algorithms & Data Structures, Discrete Mathematics, Systems Engineering
- Preliminary Coursework: Low-Level C & Python Programming, Memory Architecture

Martin-Behaim-Schule — Darmstadt, Germany

Fachhochschulreife (Business Information Systems) | Aug 2025 – Jun 2026

Grade: **1.5 (German Scale: 1.0 = Best)** | Focus: **Object-Oriented Software Engineering & Relational Databases**

Heinrich-Emanuel-Merck-Schule (HEMS) — Darmstadt, Germany

State-Certified Technical Assistant for IT | Sep 2023 – Jun 2025

Overall Grade: **1.7 (Year 1: 1.0)** | **Capstone Project Lead:** Network Security (**Grade: 1.0**)

- Led a 6-week security capstone; engineered an isolated **Linux VM network** demonstrating **MitM sniffing** and credential security live.
- Authored comprehensive technical documentation and reproducible **step-by-step runbooks**; awarded highest grade (1.0).

02 // TECHNICAL SKILLS & STACK

- **Programming Languages:** C, Python, Java, C++, SQL (SQLite), JavaScript, HTML5/CSS3, Swift
- **Systems & Developer Tools:** Linux/Unix CLI, Bash, Git & GitHub, GDB, Valgrind, VS Code, Vercel, Prompt Engineering (Google Certified)
- **Networks & OS Architecture:** TCP/IP, Subnetting, Routing (Cisco CCNA Core), Memory Management (Pointers, Heap/Stack)
- **Languages:** German (Fluent), English (Fluent), Arabic (Native)

03 // ENGINEERING PROJECTS

Real-Time Market Arbitrage & Telegram Alert Bot | Python, Telegram API, Requests

- Developed an automated data pipeline and scraper monitoring hundreds of marketplace listings to identify price arbitrage opportunities in real time.
- Built an event-driven **Telegram notification bot** delivering instant alerts with product imagery, direct links, and structured pricing metadata.

CS50x Algorithmic Systems Suite (Harvard University) | C, Memory Management, Linux CLI

- Engineered an algorithmic search engine in C, indexing and querying **140,000+ words in 0.038s** using a custom **Hash Table** with linked-list collision chaining.
- Eliminated **100% of memory leaks** across 1,500+ lines of low-level C code, verifying heap integrity via **Valgrind**.
- Designed relational database schemas in SQLite and built automated data processing scripts in Python.

Personal Interactive Web Platform (ms1a.tech) | JavaScript, HTML5, CSS3, Swiper.js, Git

- Architected a responsive developer learning record with **live focus metrics**, custom UI interactions (Swiper.js), and automated CI/CD deployment via GitHub.

04 // WORK EXPERIENCE

Stoe & Cie GmbH — Darmstadt, Germany

IT Systems Engineering Intern | Nov 2024 – Dec 2024

- Configured operating systems, automated system diagnostic workflows, and supported local network infrastructure in an industrial manufacturing environment.

Digital Inclusion & Community Tech Support — Darmstadt, Germany

Curricular IT Support Specialist (HEMS Program) | Sep 2024 – Jun 2025

- Provided **weekly hands-on troubleshooting** and digital literacy support for elderly citizens across **macOS, iOS, and Android**.
- Diagnosed system issues with patience, empathy, and **clear non-technical communication**.

05 // CERTIFICATIONS

- **Harvard University:** CS50x – Introduction to Computer Science (2026)
- **Cisco Networking Academy:** CCNA – Introduction to Networks (2025)
- **Meta:** Programming Fundamentals in Swift (2025)
